Proceedings of the Expert Committee to frame Syllabus (5th and 6th) for BA/BSc in Criminology and Forensic Science

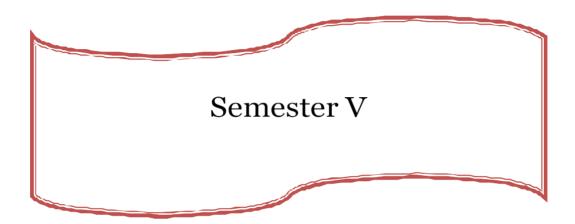

The Member of the Expert Committee finalises and approved the 5th and 6th Semester Syllabus for BA/BSc in Criminology and Forensic Science on 18th October 2023, at the Department of Political Science, Bangalore University, Bengaluru. Following members were present:

SN	Name & Organization	Signature
1	Prof. S Y Surendra Kumar, Chairperson, Department of Political Science, Bangalore University	Diversion
2	Prof. Nadagoudar, Dean, Faculty of Law, Bangalore University	States
3	Prof. V. Sudesh, University Law College, Bangalore University	Kindt
4	Prof. Harini, Department of Zoology, Bangalore University	Daria pr
5	Dr. Nagaraja Murthy, B, (Retd) Professor, Mysuru	Bonning
6	Dr. S. M. Jamadar, IAS (Retd) School of Criminality and Social Justice, Rani Channamma University, Belgaavi	- Abrent -

Program Name	BA/B.Sc. in Criminology Forensic Science	and	Semester	V
Course Title	Medical Jurisprudence a	nd Toxicolo	ogy (Theory)	
Course Code:	CFSC9T		No.of Credits	4
Contact hours	Contact hours 4 Hrs/Week		Duration of SEA/Exam	2 hours
Formative Assessment Marks 40			mative Assessment Marks	60

Course Pre-requisite(s):

Course Outcomes(**COs**): After the successful completion of the course, the student will be able to:

CO1.To understand the basics of Medical Jurisprudence and Toxicology

CO2. Demonstrate the medico-legal importance of Death.

CO3. To familiarize with the poisons and their effects on human body.

CO4. To Familiarize with autopsy and its importance.

Contents	60 Hrs
Unit- I Medical Jurisprudence and Toxicology	15 hours
 Chapter- I Introduction to JURISPRUDENCE Meaning and definition Legal And Ethical Aspects Of Practice Of Medicine The Indian Medical Council and State Medical Council: Formation, Functions Rights, Privileges and Duties of Registered Medical Practitioners. Infamous conduct, Professional secrecy and privileged communications, Medical Ethics and prohibition of Torture & care of Torture Victims Consent – Its relevance in Medical Practice & medical record maintenance. Chapter- II MEDICAL JURISPRUDENCE Medical Negligence and contributory negligence, Precautionary measures and defenses for Medical Practitioners against legal actions, Medical/Doctors indemnity insurance, Consumer Protection Act relevant to medical practice. Euthanasia – Current views and dilemmas, Different codes of Medical Ethics and Ethics in Research. Common medico-legal problems in Hospital practice, Medico-legal, ethical & socia problems in relation to AIDS. 	
Unit- II Introduction to forensic medicine	15 Hrs
Chapter- 3 Meaning of forensic medicine,	
Definition, Scope Relevant forensic medicine	
History of Forensic Medicine	
 Need, Scope, Importance and probative value of medical evidence in Crime Investigation 	

Chanter 4 Theneteles	
Chapter- 4 Thanatology	changes
• Thanatology, death, its causes, stages of death, signs of death and	changes
following death, Asphyxia and accidents,	
Death due to heat, cold and electrocution Injuries classification, and medice legal accepts	
 Injuries classification and medico legal aspects Sexual offences 	
Forensic psychiatry	15 11.00
Unit-III Forensic Toxicology	15 Hrs
Chapter – 5 Introduction to Toxicology	
Introduction to Toxicology	
Epidemiology of poisoning	
General consideration and Laws in relation to poisons / Narcotic drugs and	d
Psychotropic substances Act,	
Duties and Responsibilities of attending Physician.	
Basics of Environmental and Industrial Toxicology in relation to Health & I	Ecology;
Common poisons and their classification, Identification of common poisons	
Analytical Toxicology (Principles: Bedside & Common Lab. Tests), Collection	
Preservation and Dispatch of Viscera to FSL	
• Regulatory Toxicology for prevention of Hazards to Health and Ecology.	
Chapter- 6 CORROSIVE & IRRITANT POISONS:	
Inorganic Corrosives- Sulphuric, Nitric & Hydrochloric Acid	
Organic Corrosives- Phenol, Oxalic Acid	
• Inorganic Non-Metallic Irritants- Phosphorus, Halogens, Inorganic	Metallic
Irritants- Arsenic, Lead, Mercury, Copper	
Organic Vegetable Irritants- Abrus, Castor, Croton, Calotropis, Semicarpus, E	irgot.
Organic Animal Irritants – Snake Bite, Scorpion & other common inse	ect bites
diagnosis and Management; Medicolegal Aspects	
Mechanical Irritants- diagnosis and treatment & Medicolegal Aspects	
Unit-IV Major Poisons	15 Hrs
Chapter -7 Neurotoxic	
Inebriates- Ethyl Alcohol, Methyl Alcohol	
 Somniferous and Sedative Hypnotics – Opium and Derivatives, Barbiturate 	26
Deliriants- Dhathura, Cannabis, Cocaine.	.5
 Insecticides/ Pesticides/ Agrochemical- Organo-phosphorus Compounds. (Draano-
chlorides, Carbamates Pyrethriods, Aluminium phosphide.	Jigano-
 Spinal Poisons- Strychnine 	
 Peripheral Poisons- Curare 	
Chapter -8 Asphyxiants and Other Poisons	
 ASPHYXIANTS (GASES)- Carbon monoxide, Carbon Dioxide, Cyanog 	ions and
Cyanides	
,	
CARDIAC POISONS- Oleanders, Aconite, Tobacco OTHER POISONS: Demostic/ Household Poisons Karasana Da	torgonto
OTHER POISONS: Domestic/ Household Poisons- Kerosene, De Disinfectante Cosmotice Redenticide mothballe etc. Therapoutic Drug	-
Disinfectants, Cosmetics, Rodenticide mothballs etc Therapeutic Drug	
poisoning by Medicines- Salicylates, Paracetamol, Newer derivatives of a	
Food Poisoning- Bacterial, Viral, Mushrooms, Chemical etc. iv. Drugs of dep	
and Drug Abuse.

Program Name	BA/B.Sc.in Criminology and Forensic Science	Semester	V
Course Title	Digital Forensics and Cybercrin	ne(Theory)	
Course Code:	CFSC11T	No.of Credits	04
Contact hours	4 Hrs/week	Duration of SEA/Exam	2 hours
Formative Assessment Marks 40		Summative Assessment Marks	60

Course Pre-requisite(s):

Course Outcomes(COs): After the successful completion of the course, the student will be able to:

- CO1.To understand the concept of digital evidence, collection and preservation of evidence and its significance.
- CO2.To understand the importance of Cyber Security
- CO3. Demonstrate the methods and techniques, best practices to protect against various kind of cyber- attacks.
- CO4.To familiarize with the application of Cyber laws in general.

Contents	60 Hrs
Unit- I Introduction to Digital Forensics	15 Hrs
Chapter- 1 Basics of Computer	
 Basic Computer Knowledge, types of computers, components of computer, input and output devices, operating system types. Computer memory - Volatile and Non-Volatile memory, types of storage media – Hard Drive, SSD, Optical Devices. 	
 Chapter 2 Basics of Digital Forensics Introduction and Principles of Digital Forensics, Good Forensic Practices, Daubert's Standards. Collection of Evidence - Single System, Networked System and Remote System, Search and Seizure of Volatile and Non-volatile Digital Evidence, Imaging and Hashing of Digital Evidences. Introduction to Deleted File Recovery, Steganography and Steganalysis, Data Recovery Tools and Procedures. Importance of Log Analysis in forensic analysis. Validating Forensic Data, Addressing Data-Hiding Techniques, Performing Remote Acquisition, data carving. 	

Chapter 3 Network and Mobile Forensics

- Monitoring of computer network and activities, Live Packet Capturing and Analysis. Network Intrusion, Detection and Analysis.
- Network Devices hubs, Switches, routers, repeaters. Basic HTTP, World Wide Web, Web Browsers, Web Servers, Domain Names, URL and DNS. IP addressing – types and classes. Types of Networks – LAN, MAN and WAN.
- Investigating network attacks. Evidence collection from Routers & CCTV DVRs.
- Mobile volatile memory analysis, memory image analysis, recovering cached and internet artifacts, internet browsing artifacts, runtime disk explorer, memory dump analyser, crash dump analyser, cryptoanalysis.
- Types of Evidence present in mobile phones Files present in SIM card, phone memory dump, and evidences in memory card.
- Seizure and Preservation of mobile phones and PDA. Mobile phone evidence extraction process.
- Tracking of mobile phone location. Analysis of mobile data like SMS, call logs, contacts, media files, recordings and important mobile application data.

15 Hrs

• CDR and IPDR analysis.

Unit- II Introduction to Cybercrimes

Chapter – 4 Defining Cyberspace and Cybercrimes

- Cyberspace: Concept of Cyberspace, Emergence of Cyberspace, Nature & Meaning of Cyberspace, Attributes of Cyberspace.
- Definition and Origin; Distinction between Cyber Crime and Conventional Crime
- Information Technology its meaning and importance in the daily life of people ir modern societies.

Chapter- 5 Types of Cybercrimes

- Crimes targeting Computers: Unauthorized Access, Packet Sniffing, Malicious Codes including Trojans, Viruses, Logic Bombs, Password Sniffing, Denial-of-service (DOS) attack, Backdoors and Malwares and its types, E-mail Bombing, Salami Attack Software Piracy, Industrial Espionage, Intruder attacks.
- Cybercrimes against Individuals E-mail spoofing and online frauds, Phishing and its forms, Spamming, Cyber-defamation, Cyberstalking, Cyber Bullying and harassment, Computer Sabotage, Pornographic offenses, Key loggers and Screer loggers.
- Phases of cyber-attack Reconnaissance, Passive Attacks, Active Attacks, Scanning, Gaining Access, Maintaining Access, Lateral movement and Covering Tracks.

• Different types of tools used in cybercrime.

Unit-III Cyber related Laws and Enforcement Agencies 15 Hrs

Chapter – 6 Regulatory Framework of Information and Technology Act

- Information Technology Act 2000 and Information Technology (Amendment) Act 2008 - Objectives, Applicability, Non-applicability, Definitions, Amendments and Limitations.
- Offences Under IT Act, Offences Related with Digital Signature and Electronic Signature Under IT Act. Various cyber-crimes under Sections 43 (a) to (j), 43A, 65, 66, 66A to 66F, 67, 67A, 67B, 70, 70A, 70B, 80 etc. Penalties Under IT Act,
- Regulation of Certifying Authorities, Appointment and Powers and Functions of Controller, Cyber Appellate Tribunal.

Chapter- 7 Investigation of Cyber Crimes

- Investigation of malicious applications Agencies for investigation in India, their powers and their constitution as per Indian Laws Procedures.
- Procedure for Search and seizure of digital evidences in cyber-crime incident Forensics Investigation Process - Pre-search consideration, Acquisition, Duplication & Preservation of evidences, Examination and Analysis of evidences, Storing of Evidences, Documentation and Reporting, Maintaining the Chain of Custody.
- Data Acquisition of live system, Shutdown Systems and Remote systems, servers. Email Investigations, Password Cracking.
- Seizing and preserving mobile devices. Methods of data acquisition of evidence from mobile devices. Data Acquisition and Evidence Gathering from social media Performing Data Acquisition of encrypted systems.
- Challenges and issues in cyber-crime investigation.
- Intellectual Property Rights in the Cyber World.

Unit-IV Cyber Security 15 Hrs Chapter -9 Introduction to Cyber Security Evolution and Impact of Internet, Internet Services, Concept of World Wide Web, ٠ History of World Wide Web, Purpose of Web, Functioning & Mechanism of Web. Introduction to Cyber Security. Confidentiality, Integrity and Availability – Triad. Attacks: Threats, Vulnerabilities and Risk, Risk Management, Risk Assessment and • Analysis. Information Classification, Policies, Standards, Procedure and Guidelines. Controls: Physical, Logical and Administrative; Security Frameworks, Defence in-٠ depth: Layers of Security. Identification and Authentication Factors. Authorization and Access Controls-• Models, Methods and Types of Access Control. Chapter – 10 Network Architecture & Security Network Scanning, Eaves dropping techniques and counter measures. Network ٠ security including firewalls. Networks and vulnerabilities, networking software Client side and server side, secure network infrastructure, security protocol layers create usage policy, conduct risk analysis, security violation and restoration. Network security zone, encapsulation of network services, allocation of traffid ٠ control functions. DNS Enumerations, Analysis of Deep web/ dark web. • IP security architecture, Security protocols, IPSec, Web Security – Firewalls, IDS ٠ IDPS – Types and Technologies. Authentication Mechanisms: Passwords, Cryptographic authentication protocol • Kerberos, X.509 LDAP Directory. Digital Signatures. Web Security: SSL Encryption TLS, SET. Intrusion detection.

Course Articulation Matrix: Mapping of Course Outcomes (COs) with Program Outcomes(POs1-15)

Course Outcomes (COs) / Program Outcomes(POs)	CO1	CO2	CO3	CO4		
1. Disciplinary knowledge and skills	Х	Х	Х	Х

Program Name	BA/B.Sc. in Criminology and Forensic Science	Semester	V
Course Title	Juvenile Justice (Theory)		
Course Code:	CFSC13T	No. of Credits	04
Contact hours	4 Hrs/Week	Duration of SEA/Exam	2 hours
Formative Assessment Marks 40		Summative Assessment Marks	60

Course Pre-requisite(s):	
 Course Outcomes(COs): After the successful completion of the course, the student will be able to: CO1: Understand the concept of juvenile deviance and its brief history. CO2: Explain the current situation of JD in India in comparison to developed countries CO3: Understand the various theories of deviancy. CO4: Develop the knowledge regarding the relevant laws, institutions dealing with juve deviants. 	s.
Contents	60 Hrs
Unit- I Introduction to Juvenile Justice	15 Hrs
 Chapter- 1 Meaning and Definition Juvenile Justice. Deviance. International perspectives on juveniles (in developing countries). Chapter 2 Rights of the Child. Basic rights – Child rights as human rights – United Nations Convention on the Rights of the Child (UNCRC) Legal protection for children – Fundamental rights as defined by the Constitution of India. National Commission for protection of child rights. Riyadh Guidelines. 	
Unit- II Theories of Juvenile Deviancy.	15 Hrs
 Chapter – 3 General Factors Economic Factors Social Factors Psychological Factors Genetic factors 	

	 ,
Chapter- 4 Specific Factors.	
Street gangs and deviancy as a result of Differential Association.	
Social Disorganization, Broken Homes and Deviancy. Broken Window Theory of Deviancy.	
Broken Window Theory of Deviancy. Impact of mass modia on invention Randura and Imitation Theory. Claser and	
 Impact of mass media on juveniles: Bandura and Imitation Theory, Glaser and Identification Theory. 	
 Learning Theories; Criminal Opportunity Theory; Sub culture Theories. 	
Economy meetics, chining opportanity meety, sub-cutare meetics.	
Unit-III Laws Relating to Deviant Behaviour of Juveniles.	15 Hrs
Chapter – 5 History of Juvenile Justice Act.	
• Early History of JJ in India up to 2015: Joint Family system and typical Varnashran beliefs and duty towards children.	-
 Juvenile Justice introduced by the British-on-British model at the provincial level in India. 	
 Apprenticeship Act, Reformatory Schools Act, Children Acts of 1920s and 1930s; Borstal Schools Acts, Central Children Act 1960, JJ Act 1986, JJ Act 2000, JJ Act 2015 (care and protection act). 	
Chapter- 6 Legal frameworks.	
 Conceptual clarity on Legal frameworks (POCSO, ITPA, Child Labour Act, 	
Information Technology Act, Child Marriage Act)	
Familiarization of various other laws relating to children in India.	
Identifying appropriate practitioners/stakeholders (includes special educators,	
translators, interpreters, psychologists and psychiatrists).	
Unit-IV Institutions in India for Children's.	15 Hrs
Chapter -7 Institutions in India for Children in Conflict with Law (CICWL)	
 Juvenile Justice Board (JJB): Composition of the Board – Powers, functions and responsibility. 	2
 Procedure in relation to children in conflict with law – Special focus on Section 1. (Preliminary assessment in heinous offences). 	Ē
 Powers of children's court – Observation homes – Special home – Borstal school - 	-
Special juvenile police unit - Managing the unrest of children in child care	e
institutions – Managing deviant behaviour in juvenile justice institutions.	
Chapter – 8 Institutions in India for Children in Need of Care and Protection (CINOCAP)	
Child Welfare Committee (CWC): Composition of the Committee, Powers, function	4
and responsibility.	
 Procedure in relation to children in need of care and protection – Open shelter - 	
Place of safety – Foster care – Children's/Shelter homes – Institutions' role	9
(public/private) – Adoption and sponsorship of children.	
	1

Chapter – 9Juvenile Justice Process.

- Pre-trial, trial and sentencing Probation Juvenile deterrence practices Rehabilitation and social re-integration – After care programs – Nature and role or diversion programs – Disposition process
- Social Investigation and Reporting and its impact on rehabilitation Individual Care Plan (ICP) – Legal and ethical role, Communication skills and attitudes (move away from apathy to empathy) of Practitioners (Special Juvenile Police Unit) in pretrial and during trial for timely disposition of cases and forensic investigations/interviewing
- Role of families/guardians (support persons) in the trial and post-trial process Repatriation – Child friendly atmosphere to be initiated and implemented in courts (JJB and CWC) and police stations – Best practices (Local and International) – Do's and Don'ts.

Course Articulation Matrix: Mapping of Course Outcomes (COs) with Program Outcomes(POs1-15)

Course Outcomes (COs) / ProgramOutcomes(POs)	CO1	CO2	CO3	CO4		
1. Disciplinary knowledge and skills	Х	Х	Х	Х		
2. Skilled communicator	Х	Х	Х	Х		
3. Critical thinker and problem solver	Х	Х	Х	Х		
4. Team player/worker	Х	Х	Х	Х		
5. Skilled project manager	Х	Х	Х	Х		
6. Digitally literate	Х	Х	Х	Х		
7. Analytical reasoning	Х	Х	Х	Х		
8. Research-related skills	Х	Х	Х	Х		
9. Multicultural competence	Х	Х	Х	Х		
10. Moral, Ethical & Legal reasoning	Х	Х	Х	Х		
11. Develop scientific temper and self- motivating learnings	Х	Х	Х	Х		
12. Lifelong learner	Х	Х	Х	Х		

Course Articulation Matrix relates course outcomes of course with the corresponding program outcomes whose attainment is attempted in this course. Mark 'X' in the intersection cell if a course outcome addresses a particular program outcome.

Formative Assessment 40 (Weightage in Marks Activities/Assignment/Seminar/Presentation &		ten Tests,	
Assessment Occasion/type	C1	C2	Total Marks
Written Test (2)	10	10	20
Seminar/Presentation/ Activity	10		10
Case work/Assignment/Field work/Project work etc		10	10
Total	20	20	40

SUGGESTED TOPICS

- 1. Crime in urban and rural areas.
- 2. Railway crimes.
- 3. Study on violent crimes.
- 4. Prison administration.
- 5. Police administration.
- 6. Police training.
- 7. Police-Community relations
- 8. Police help-line.
- 9. Forest crimes.
- 10. Criminal personality tendencies- groups; tribes.

11. P.O. Act- released offenders on probation.

12. Prisoners Act- Released convicts.

- 13. Victims of Crime.
- 14. Communal violence.
- 15. Juveniles in conflict with law.

16. Child labor.

17. Drug abuse

18. Voluntary agencies.

19. Ragging.

20. Economic offences.

21. Cyber crimes.

22. Prostitution- sex workers.

23. Human Rights.

- 24. Female criminality.
- 25. Crimes against women.

26. Crimes against children.

27. Mass media and crime.

28. Case Studies.

29. Pornography.

30. Crimes against weaker sections.

31. Habitual Criminals

32. Consumer Protection.

Program Name	BA/B.Sc. in C Forensic Sci	Criminology and ence	Semester	V
Course Title	Victimology	(Theory)		
Course Code:	CFSCE1T-A		No. of Credits	03
Contact hours	4 Hrs/Week		Duration of SEA/Exam	2 hours
Formative Asses	ssment Marks	40	Summative Assessment Marks	60

Course Pre-requisite(s):	
 Course Outcomes(COs): After the successful completion of the course, the student will be able to CO1: This course provides exhaust knowledge of victimology and victimization CO2: It enables students to analyze the characteristics and factors that correlate with victimization. CO3: Evaluates what the criminal justice system is doing (or not doing) for crime victims. CO4: It creates awareness about various schemes of victim's assistance across globe and India. 	0:
Contents	45 Hrs
Unit- I Introduction to Victimology	15 hours
 Chapter- 1 Development of victimology as a science Meaning, definition, history and scope Concept of victims in Jews, Islam, Ancient India and Democratic society Chapter- 2 Victim- Offender Relationship Penal couple: Meaning, Victim Precipitation, Abetment and participation Innocent Victims: Meaning and types Victim proneness Victim vulnerabilities and categorical risks Age-related vulnerability Gender-related victims 	
Unit- II Victimological Theories	15 Hrs
 Chapter- 3 Major Theories Luckenbill's (1977) Situated Transaction Model (action-clarification-reaction-counteraction-presence of weapon/situation-presence/absence of onlookers-victimization/crime). Benjamin and Master's Threefold Model; Precipitating Factors, Attracting Factors, Predisposing Factors. Cohen and Felson's Routine Activities Model: Suitable Targets, Motivated Offender Absence of guardian. Broken Window Theory Propinquity Hypothesis, Proximity Hypothesis, Familiarity Hypothesis, Powe Asymmetry Hypothesis (of Feminists). 	

Chapter-4 Psychological Typologies of Victim Reactions	
 "Just World Syndrome and Blaming the Victim" (victim depression). "Fundamental Attribution Error and Blaming the Situation" (partly responsible victim). "Dunning-Kruger Effect and Inviting Victimization" (victim precipitation). "Actor-Observer Bias and Blaming the Victim" (innocent victim). "Battered Person Syndrome and repeat Victimization/ Bashing the Victimizer". "Stockholm Syndrome" and siding with the victimiser (power asymmetry)/ mutual attraction. Clandestine Victimization and unreported Victimization/Crime: Part-blame/ Rational choice. 	
Chapter- 5 Classification by Victimologist	1
 Benjamin Mendelsohn Hans Von Hentig Abdul Fatah General Classification: Age related Vulnerability, Gender-related victims, Caste system and the Untouchables, Race, Slavery and Apartheid, Poor classes and Bonded labour, Minorities and Majorities. 	
Unit-III Victims in CJS and victim assistance	15 Hrs
Chapter- 6 Victims and CJS	
 Police and the Victim as a complainant, as a witness interrogating with suspicion, police perception depending upon victim precipitation/felicitation Victim and the Court examination in chief, cross examination, re-examination: cour room drama and victim trauma as a public display; no role in deciding punishment; no role in appeal; restitution and compensation in ancient reparation Corrections: no involvement of victim; parole/probation conditions of victim safety. 	
Chapter- 7Crime Victim Compensation and Victim Assistance and Advocacy	
 Costs of Crime and their impact on the victim/ victim family; New Zealanc Experiment in Victim Compensation (1960), British Scheme of Victim Compensatior (1964), US Schemes of Victim Compensation, Japan's New Scheme of Victim Compensation, South African Victim Compensation Scheme. Victim Compensation in India: Sections 357, 357A and 357B of Cr.P.C.; Atrocity Victims' Compensation, Motor Vehicle Accident Cases Victim Compensation; Calamity Victim Compensation; Rape Victim Compensation; Miscellaneous Compensation Schemes. Victim Assistance: Crisis Centre, Medical Care, Menta trauma and Psychological; counseling, Social Support services; Advocacy Movements Local, National and International UN Declaration of Basic Principles of Justice for Victim of Crime and Abuse of Power (G.A. 40/34 on 29th Nov. 1985) UN Guidelines on Witness Protection; Measures for Witness Protection in India

Course Title	Community Policing (Theory)		
Course Code:	CFSE1T-B	No. of Credits	03
Contact hours	3 Hrs/Week	Duration of SEA/Exam	2 hours
Formative Asses	ssment Marks 40	Summative Assessment Marks	60

Course Pre-requisite(s):	
Course Outcomes (COs): After the successful completion of the course, the student will be able to CO1: Understanding Historical background and Essence of community policing. CO2: Set out the various models of community policing in different countries. CO3: Understand the relationship between community policing and crime Investigation. CO4: Importance of Community policing in the Indian circumstance.	0:
Contents	45 Hrs
Unit- I Introduction to Community Policing	15 hours
 Chapter- 1 History of Community Policing Meaning and Definition of Community Policing. Objectives of Community Policing. Essential Components of Community Policing. Historical background of Community Policing in world context. And philosophical, and practical dimensions of community policing Planning and Implementing Community Policing Chapter 2 Community Policing and Crime Prevention Community Policing Models in USA, UK, Asian Countries, European Countries. Community policing strategies for solving problems - Community policing and Crime prevention. 	15 Hrs
 Chapter –3 Activities of Community policing Activities Community Policing Vs traditional policing. Community policing in Action: Officers tasks and work routines Community and beat officers. Improving detection and convictions, victim services and protecting human rights, Role of Community. Chapter – 4 Community Policing for Management of Public Order & Internal Security: Community Policing Program for Naxal Affected & Other Low Intensity Conflict Areas. Community Policing in Border Areas Different Methods and Experiments. 	

Unit-III Community Policing in India	15 Hrs
 Chapter –5 Models of Community Policing in India Community policing in the Indian context. Beats, Patrols, Night Visit Books, Village Defense Parties, Special Police during Elections. PRAHARI (in Assam, Himachal Pradesh and Punjab) MAITHRI in Andhra Pradesh HOYSAL in Karnataka Mohalla Committees: Special Police in Naxal areas of Chhattisgarh. Tamil Nadu Community policing experiments: Friends of Police (FOP): Chapter -6 Community Involvements Village / Town Defense Societies / Tikkri Pehra / Patrolling by the Public, Community Police Officers, Special Police Officers, Neighbourhood Watch, Victim& Witness Support, Liaison with RWAs etc. Community as a by Standing help to police personnel for crime investigation. Police Mithra Programmes.

Program Name	BA/B.Sc. in Criminology and Forensic ScienceSemester				V
Course Title	Forensic Biology and Serology (Theory)				
Course Code:	CFSE1T-C		No. of Credits	03	
Contact hours	3 Hrs/Week			2 hours	
Formative Assessment Marks 40		Sum	mative Assessment Marks	60	

Course Pre-requisite(s):	
Course Outcomes (COs) : After the successful completion of the course, the student will be able CO1: Understand the scope and importance of Forensic Biology and serology CO2: Understand the concepts of various biological samples and its examination CO3: Able to understand the new concepts of diatoms and wildlife Forensics CO4: Awareness about the application of Forensic Biology and Serology in CJS	to:
Contents	45 Hrs
Unit- I Introduction to Forensic Biology	15 hours
 Chapter- 1 Forensic Biology Scope and importance of Forensic Biology in crime investigation Hair- Introduction, Types, collection and examination, identification of spices through hair, Forensic significance of Hair Forensic Physical anthropology and odontology - Identification Skeletal remains, importance of odontology and superimposition. Diatoms – identification, classification, structure and its importance Chapter 2: Wildlife forensics Introduction and importance of wildlife forensics, Endangered and protected species of plants and animals, Identification of skin, bone, nails, teeth and pug marks of various animals. 	n
Unit- II Introduction to Forensic Serology	15 Hrs
 Chapter -3: Forensic Serology Scope, importance and role of Forensic serology in criminal investigation. Blood - Identification/characteristics, collection, preservation. Antigens and anti-bodies. Examination of Blood- physical examination, preliminary and confirmatory examination. Identification of species through blood – its importance and techniques. 	

Chapter – 4: DNA Fingerprinting	
 Introduction to DNA. Composition of DNA. DNA fingerprinting techniques, Importance of DNA fingerprinting in criminal identification 	
Unit-III Detection of evidences in Forensic biology and Serology	15 Hrs
 Chapter –5 Examination of Biological Evidences Body fluids-(semen, saliva, urine and faecal matter) composition Identification/characteristics, collection, location, preservation. Examination of various biological evidences- physical examination, preliminary and confirmatory examination. Chapter-6: Forensic Entomology Introduction, importance of insects in forensic science, life cycle of Insects, collection of entomological evidences, determination of time of death its application in Forensic entomology. Forensic botany- Introduction, types of botanical evidences, location, collection and examination, importance of botanical evidences in Forensic science. Pollens – Structure, function, method of identification, its forensic significance.

Program Name	BA/B.Sc. in Criminology and Forensic Science	Semester	V
Course Title	Fingerprint Examination (The	ory)	
Course Code:	CFSCV1T-A	No.of Credits	03
Contact hours	3 Hrs/Week	Duration of SEA/Exam	2 hours
Formative Asses	ssment Marks 50	Summative Assessment Marks	50

CourseOutcomes (COs):After the successful completion of the course, the student will CO1: Understand the concept, definition and nature of Fingerprints CO2:To familiar the importance of Fingerprint as conclusive evidence in Cour CO3:Explain the basic elements and major scope, types of Fingerprints. Co4:To train the students practically in Fingerprint examination skills, which end to work as fingerprint experts in forensic science labs, private investigation, security agencies and consultancy services to CJS.	rt. nable the students
Contents	60 Hrs
Unit- 1 Introduction to Dactyloscopy/Poroscopy/Dermatoglyphics	15 Hrs
 Chapter-1 Nature and history of Fingerprints Definition, Meaning and Scope: Biological Morphology of Fingerprints. Brief history of Fingerprints from Babylonian, Egyptian, Greek and Chinese practices before the Christian era. Various Types of Corporate Crimes. 	
 Chapter- 2 Fundamentals of Fingerprints Law of Individuality. Law of Permanence. Principle of Immutability. 	
Unit- 2 Characteristics and Classification of Finger Prints	15 Hrs
 Chapter- 3 Nature of Finger Print Characteristics. Fingerprint Patterns. Fingerprint Peculiarities/Minutiae and Characteristics 	
 Chapter- 4 Classification of Fingerprints Manual Systems: Roscher System (Germany and Japan), Vucetich System (A and South America), and Henry System (India, UK and English speaking countri Computerised System and AFIS. 	

Unit- 3 Fingerprints Examination (Practicals) Experiential Learning	30 Hrs
Chapter- 5 Examination of Latent Prints	
Visible Latent prints by Slanting Photography	
• Fuming Latent prints on vertical surfaces (Iodine, Anthracin etc.)	
 Developing of invisible chance prints by using different powders on different colour materials. 	
 Applying powder on Latent prints on flat surfaces (Graphite powder) 	
 Photographing Stained Fingerprints (blood, colour, dirt, flour, etc.); Fingerprint 	
Photography/Videography	
Chapter- 6 Sample Prints	
Ink, Pad and Paper	
Biometric Impression on Scanner/ Live Scans	
Other Methods.

Course Pre-requisite(s):

Course Outcomes(**COs**): After the successful completion of the course, the student will be able to: CO1: Understanding the importance of different forensic instruments

CO2: To know the application of different instruments in the forensic science laboratories.

CO3: This familiarization knowledge of application of different examination of physical clues.

CO4: Helps the students to use in different professions like if they want to work as Forensic experts, Police Officers, Detectives and Private Investigations

Contents	
Unit- I Introduction to Forensic Instrumentation	15 hours
 Chapter- 1 Introduction to instrumentation Meaning and Importance of Instrumentation in Forensic Science Sample preparation for chromatographic and spectroscopic evidence. Chromatographic methods. Fundamental principles and forensic applications of thin layer chromatography, gas chromatography and liquid chromatography. Chapter-2 Spectroscopic methods. Fundamental principles and forensic applications of Ultraviolet-visible spectroscopy, infrared spectroscopy, atomic absorption spectroscopy, atomic emission spectroscopy and mass spectroscopy. X-ray spectrometry. Colorimetric analysis and Lambert-Beer law. Electrophoresis – fundamental principles and forensic applications. Neutron activation analysis – fundamental principles and forensic applications. 	
Unit- II Study of Microscopes	15 Hrs
 Chapter -3 Introduction to Microscope Meaning and Importance of Microscope Fundamental principles of Microscope Chapter-4 Different types of microscopes. Electron microscope. Comparison Microscope. Forensic applications of microscopy. 	

Unit-III Experiential Learning (Practicals)	30 Hrs
 Chapter –5 To study different physical clues under compound microscope To study different physical clues under comparative microscope To determine the concentration of a colored compound by colorimetry analysis. To carry out thin layer chromatography of ink samples. To carry out separation of organic compounds by paper chromatography. To identify drug samples using UV-Visible spectroscopy.

5. Skilled project manager	Х	Х	Х	Х		
6. Digitally literate		Х		Х		
7. Analytical reasoning	Х	Х	Х	Х		
8. Research-related skills	Х	Х	Х	Х		
9. Multicultural competence	Х	Х	Х	Х		
10. Moral, Ethical & Legal reasoning	Х	Х	Х	Х		
11. Develop scientific temper and self- motivating learnings	Х	Х	Х	Х		
12. Lifelong learner		Х	Х	Х		

Course Articulation Matrix relates course outcomes of course with the corresponding program outcomes whose attainment is attempted in this course. Mark 'X' in the intersection cell if a course outcome addresses a particular program outcome.

Formative Assessment 40 (Weightage in Marks includes: Written Tests, Activities/Assignment/Seminar/Presentation &Attendance)						
Assessment Occasion/type C1 C2 Total Marks						
Written Test (2)	10	10	20			
Seminar/Presentation/	10		10			
Activity						
Case work/Assignment/Field work/Project		20	20			
work etc						
Total	20	30	50			

Program Name	BA/B.Sc. in Criminology and Forensic Science	Semester	V
Course Title	Laboratory Quality Manageme	ent(Theory)	
Course Code:	CFSV1T-C	No.of Credits	03
Contact hours	3 Hrs/week	Duration of SEA/Exam	2 hours
Formative Assessment Marks 50		Summative Assessment Marks	50

Course Pre-requisite(s):

Course Outcomes (COs): After the successful completion of the course, the student will be able to:

- CO1: Understand the scope and importance of Quality management Systems in laboratory CO2: Understand the concepts of quality audits
- CO3: Able to understand the new concepts of Management requirements and Assessor guide CO4: Become aware about how to implement the quality management in laboratory in day to day work

Contents	60 Hrs
Unit- I Quality Management and Organizations	15 hours
 Chapter- 1 Introduction to Laboratory Quality Management Need of quality management in Forensic laboratories, definition and advantages of accreditation. Various organizations involved in maintain quality system and in framing guidelines National Accreditation Board for Testing and Calibration Laboratories (NABL) International Laboratory Accreditation Co-operation (ILAC), Asia Pacific Laboratory Accreditation Co-operation (ILAC), Asia Pacific Laboratory Accreditation (ISO), Bureau of Indian Standards (BIS). Chapter-2 Historical Background of Laboratories Introduction, history and importance of - National Accreditation Co-operation (ILAC), Asia Pacific Laboratory (ILAC), Asia Pacific Laboratory Accreditation Co-operation (ILAC), Asia Pacific Laboratory and Calibration Laboratories (NABL), International Laboratory Accreditation Co-operation (ILAC), Asia Pacific Laboratory Accreditation Co-operation (ILAC), International Organization for Standardization (ISO), Bureau of Indian Standard: (BIS). 	
Unit- II Forensic Quality Management System and quality audits	15 Hrs
 Chapter -3 Definition of Quality, Quality Management System (based on People, Technical and Document), 	

 Quality Manual, Quality Manager, Total Quality, Quality Assurance, Quality Control, Quality Planning, Classification of Quality Management System. Chapter-4 Quality audit- Quality Management System, classification of quality audit, Organization of external and internal audits. Planning of audit, Implementation of internal audits, Follow up of corrective action, Records and reports of internal audits, Additional unscheduled audits. 	
Unit-III Experiential Learning (Practicals)	30 Hrs
 Chapter –5 Management Requirements: organizational, document control, subcontracting of tests and calibrations control of Non-conforming testing / calibration work, Corrective and preventive actions, Management Review. Technical Requirements: Test and calibration methods and their validation, measurements, standards and reference material, traceability, sampling, Proficiency Testing and Review Program. Assessor guide: Assessor's role, Assessor assignment procedure, Procedure of assessment of new applicant laboratories, Pre-assessment visit. On-site assessment, Guide of assessors to formulate recommendations for NABL, Procedure for conducting closing meeting.

Program Name	e BA/B.Sc. in Criminology and Forensic Science				VI
Course Title	Forensic Dactyloscopy and DNA Fingerprinting ((Theory)				
Course Code:	CFSC14T		No. of Credits		4
Contact hours	4 Hrs/Week		Duration of SEA/Exam		2 hours
Formative Assessment Marks 40		Sum	mative Assessment Marks	60	

Course Pre-requisite(s):

Course Outcomes(COs): After the successful completion of the course, the student will be able to:

CO1: Understanding the concept of Forensic Dactyloscopy and its significance.

CO2: Familiarizing the fundamental principles and Laws of Individuality.

CO3: To gain insights of crimes, scams and their investigation in Indian context.

CO4: To understand the forensic importance of Forensic Dactyloscopy and DNA in CJS

Contents	60 Hrs
Unit- I : Introduction to Dactyloscopy	15 hours
 Chapter -1 Meaning of Dactyloscopy Meaning and Scope; Print Science, Importance of Print Science, Morphology of Fingerprints and Footprints; Basic Features and Principles of Fingerprints Historical Development of Print Science. Organization of State and Central Fingerprint Bureaus, Embryogenesis. Dermatological formation and Diseases influence on the damages of fingerprints, Biometric uniqueness, and Finger prints as Evidence. 	
 Chapter -2 Classification of Finger Prints Pattern and their significance Meaning and importance of classification of finger print patterns. Explaining various types of classification of Finger prints; Henry classification and its examination, secondary classification system, Sub secondary classification system, Secondary sub secondary classification system, Key classification, 	

	1
 . Chapter -3 Significance of palm prints Significance of palm prints, Ridges and characteristics, Ridge counting, Minutiae, Poroscopy and Edgeoscopy, Characteristics of pores – size, position and latent print formation of pores 	
Unit- II Development, Methodology and Impact of Finger Prints.	15 hours
 Chapter – 4 Development of Finger Prints Types of Chance Prints at Scene of Crime Development of Latent Finger Prints. 	
 Chapter- 5 Physical Methods for Latent Fingerprint Development Powder Methods: Regular: - Black powder and white powder. Metallic: Aluminium powder and Magnetic black powder. Fluorescent: Greenescent and Pinkescent fluorescent powders. Iodine Fuming Method. 	
 Chapter-6 Chemical and Photography Methods for Fingerprint Development Gentian Violet, Cyanoacrylate and Silver Nitrate Method. Ninhydrin Method etc. Developing of Latent Prints and Visible prints by Slanting Photograph. 	
 Chapter-7 Biometric, Digital Imaging and Green Methods Forensic application of Biometrics, Biometric Impression on Scanner/Live Scans. Application of digital imaging process in Fingerprint science. AFIS application in Police and Finger Print Bureau, Application of light sources in fingerprint detection. 	
Unit-III Foot Prints, DNA finger prints development and their legal procedures	15 hours
 Chapter- 8 Development of Foot Prints Meaning, Types, Importance Tracing of surface foot prints, Casting and lifting of surface and sub-sunken footprints Gait pattern analysis – Determination of Sex, Height, Age of a person Gait pattern analysis 	
Unit-IV Legal Proceudre	15 hours
 Chapter -9 Meaning and Importance of DNA Finger Prints Meaning of DNA Finger Prints and Scopes Importance of DNA finger Prints Legal procedure for conducting DNA finger Prints Different type's cases conduct DNA Finger Prints. 	
 Chapter – 10 Legal provisions Of DNA Finger Prints. Source of DNA: Blood, Saliva, Hair, Skin Tissues and Nail etc.

Course Pre-requisite(s):

Course Outcomes(**COs**): After the successful completion of the course, the student will be able to:

CO1: Understand the definition, nature, role of Corporate Crimes.

CO2: Explain the basic elements and major scope, types of Corporate Crimes.

CO3: Understanding the various types of corporate crimes occurred in India.

CO4: To know the existing Laws and Preventive measures towards Corporate Crimes in India.

Contents	60 Hrs
Unit- 1 Introduction Corporate Crimes	15 Hrs
Chapter-1 Nature of Corporate Crime	
 Meaning and Definition of Corporate Crimes. 	
 Various Types of Corporate Crimes 	
 Famous Cases of Corporate Crimes. 	
Chapter- 2 Forms of Corporate Crimes	
Bankruptcy related Frauds	
 Exploiting assets & scams 	
Mortgage Frauds	
Share Sale Frauds	
Unit- 2 Corporate Frauds	15 Hrs
Chapter- 3 Various kinds of Corporate Frauds in India.	
 Meaning & Definition of Fraud 	
 Types of Fraud: - Individual & Corporate 	
Characteristics of Fraud	
 Trends of Scams: National & Global Perspective 	
Chapter- 4 Fraud in Banking Sector	
 Definition & Scope of Fraud in Banking Sector 	
Banking Impersonation	
Chapter-5 Types of Frauds	
Fraud against Accounts	
 Fraud against Card (Debit/Credit) 	
 Electronic Fraud and Miscellaneous Fraud 	

Unit- 3 Introduction to Insurance Frauds	15 Hrs
Chapter- 6 Meaning of Insurance Frauds	
 Definition, Nature & Scope of Insurance 	
Losses due to Insurance Frauds	
Chapter- 7 Types of Insurance Frauds	
Property Insurance	
Motor Vehicle Insurance	
Health Insurance	
Role of Investigation in Insurance Frauds	
Unit- 4 Prevention of Corporate Crimes	15 Hrs
Chapter- 8 Measures in preventing Corporate Crimes in India.	
Laws, Regulation and Supervision	
Corporate Governance	
Chapter-9 Private Sector in India	
Governance of Private Sectors in India.	
 Laws, Regulation and Supervision 	
Suspicious Transaction Penorting	

• Suspicious Transaction Reporting

- 2. Railway crimes.

3. Study on violent crimes.

4. Prison administration.

5. Police administration.

6. Police training.

7. Police-Community relations

8. Police help-line.

9. Forest crimes.

10. Criminal personality tendencies- groups; tribes.

11. P.O. Act- released offenders on probation.

12. Prisoners Act- Released convicts.

13. Victims of Crime.

14. Communal violence.

15. Juveniles in conflict with law.

16. Child labor.

17. Drug abuse

18. Voluntary agencies.

19. Ragging.

20. Economic offences.

21. Cyber crimes.

22. Prostitution- sex workers.

23. Human Rights.

24. Female criminality.

25. Crimes against women.

26. Crimes against children.

27. Mass media and crime.

28. Case Studies.

29. Pornography.

30. Crimes against weaker sections.

31. Habitual Criminals

32. Consumer Protection.

Program Name	BA/B.Sc. in C Forensic Scie	Criminology and ence	Semester	VI
Course Title	Transnationa			
Course Code:	CFSE2T-A		No. of Credits	03
Contact hours	3 Hrs/Week		Duration of SEA/Exam	2 hours
Formative Assessment Marks 40		Summative Assessment Marks	60	

Course Pre-requisite(s):

Course Outcomes(**COs**): After the successful completion of the course, the student will be able to: CO1: Understanding of meaning and nature transnational organized crimes.

- CO2: Familiarizing the concept of cross-border criminal activities and its impacts on nations.
- CO3: Various legislation to combat transnational activities.
- CO4: To Know the process of extradition of criminals, fugitives and terrorists.

Contents	45 Hrs
Unit-1 Introduction to Organised Crime	15
 Chapter -1 Introduction Defining Organised Crime Characteristics of organised crime How organised crime Is organised Similarities and difference between organised crime and other forms of crime (structural and functional) Causes and evolution of organised crime from its inception Chapter -2 General classification and impacts Emerging phenomenon of Organised crime in India and around the world Jurisdiction and limitations General classification of Organised crimes; organised gang criminality, Racketeering, syndicate crime, smuggling Impacts of organised crime; to individual, to family and society and economy 	
Unit -2 Introduction to Transnational Crimes	15 Hrs
 Chapter -3 Introduction Domestic crimes and Transnational crimes Meaning and definition Characteristics of transnational crimes Critical role of facilitators Chapter -4 Types of Transnational Crimes Types of transnational crimes; Drug trafficking, Illicit arms trafficking, Humar trafficking, organs trafficking minerals and wildlife trafficking, money laundering, hawala transactions, fraud and extortion, counterfeit currency and goods, Cybercrime, Terrorism, prohibited medicine smuggling, multinational corporate crimes 	

 Infamous Drug cartels and drug lords like Pablo Escobar and Medellin Cartel, El Chapo and Sinaloa cartel, Gulf cartel and Economy behind it. 	
Unit-3 UNO and International Conventions	15 Hrs
Chapter -5 Crimes against humanity and genocide	
 War Crimes, prisoners of war, war crime tribunals; International court of justice. Famous trails: Nazis trial by the Nuremberg WCT, Saddam Hussians trail, the 	
Eichmann trail.	
Chapter -6 International interest	
• UNO, International Human rights, Victims of Genocide, Religious oppressions.	
Geneva Convention	
Chapter -7 Legal Provisions in India	
• IPC; 120B,364A,399,400,	
The prevention of Illicit traffic in narcotic drugs and psychotropic substance Act 1998	
Immoral traffic (prevention)Act,1973	
 Foreign exchange regulation Act, 1956 	
 Uttar Pradesh gangsters and Anti-social activities(prevention) Act,1986 	
Custom's Act, 1962, The Arms Act, 1959	
COFEPOSA 1974 The National economics Act 1999	
 The National security Act,1980 KCOCA 2000, MCOCA 1999 	
 KCOCA 2000, MCOCA 1999 Transplantation of Human organ and tissue Act, 1994 	
 PMLA-2002 	
Chapter-8 International Legal Frameworks	
The United Nations convention against Transnational organized crime 2000	
The Naples political declaration and Global action plan.	
Extradition treaties signed among world nations.

<u>CBCS Question Paper Pattern for UG</u> <u>Semester</u> <u>DSC, DSEC & OEC</u>

Paper Code:		Paper Title:		
Duration of Exam	2 Hours		Max Marks	60
Instruction:	Answer all the sectio	ns		

Section-A

Answer any TEN of the following objectives questions. Each question carries equal marks	Marks 1X10=10
Q1.	·
a.	
b.	
с.	
d.	
e.	
f.	
g. h.	
i.	
j. k.	
k.	
1.	

Section-B

Answer any SIX of the following questions. Each question carries equal marks	Marks 5X6=30
Q2.	
Q3.	
Q4.	
Q5.	
Q6.	
Q7.	
Q2. Q3. Q4. Q5. Q6. Q7. Q8.	
Q9.	

Section-C

Answer any TWO of the following questions. Each question carries equal marks	Marks 10X2=20
Q10. Q11. Q12.	
Q12.
